

# Honors Opportunities in the DEWSC Program

Barrett, The Honors College at ASU, is a selective, small undergraduate college responsible for recruiting academically outstanding undergraduates to ASU and organizing the resources of that major research university for their benefit. The construction program in the School of Sustainable Engineering and the Built Environment is known nationally as the Del E. Webb School of Construction (DEWSC). DEWSC and the Barrett Honors College work together to provide their students with academic advising, research and internship opportunities, scholarship information and access to distinguished lectures and other special events. DEWSC is proud to educate the future leaders of the construction industry.

By taking CON (Construction) and CIM (Concrete Industry Management) courses under an honors designation, DEWSC honors students work on special projects that provide them an expanded understanding of the course subject matter. These courses allow the students to work on exciting research with faculty members. Such experiences distinguish honors students from other students and help them gain entrance to graduate programs and/or achieve better career. Honors students receive special invitations to various events, including meeting industry, faculty and staff. They can also gain funding for research or travel to conferences held in other cities.

## Academic Requirements

To graduate as a Barrett Honors student, you must meet certain academic requirements listed on the Barrett Honors College Web site. Prospective students should review the Admission Frequently Asked Questions Admissions FAQs for additional information including the application deadlines, minimum entrance requirements, and more.

One of the important requirements is that students must complete a thesis/creative project for three to six credit hours. DEWSC students can take CON 492: Honors Directed Study and CON 493: Honors Thesis, with approval from a sponsoring faculty advisor.

We are here to support your success at Barrett and we encourage you to enrich your experience by actively participating in all facets of the Barrett college experience. For assistance in finding a research faculty advisor, please contact Dr. Avi Wiezel, the DEWSC honors faculty advisor, [avi.wiezel@asu.edu](mailto:avi.wiezel@asu.edu), 480-965-4121.
